

Fountaine Pajot 46 Cumberland Maestro

Description

Fountaine Pajot Cumberland 46 Maestro – ***The owners version.***

One of the last built, she has a superb specification for comfortable cruising for owners and guests with additional separate crew cabins forward. She has been upgraded continually by experienced owners. The CUMBERLAND 46 solves the yacht designers dichotomy of form and function beautifully combining an elegant and purposeful interior with delightful lines providing a fast yet fuel efficient cruising motor yacht. The builders provide data to suggest a reduction of 40% in fuel consumption based on her streamlined and hydrodynamic features.

These nautical qualities, powerful dual engines and reliability mean the boat can sail in the open seas or close to land in complete safety and in great comfort. The panoramic saloon and superb fly-bridge are vast living spaces. The excellently equipped private cabins each include rest and relaxation areas.

The master version includes its own private suite. Trawler catamarans, the long range voyager.
