

Rustler 37

Description

This Rustler 37 – a special find.

Unique rig with in mast furling (powered) and electric furling headsail that is self tacking – all new 2022 – including new sails.

The original, CONVENTIONAL MAST AND RIGGING is also available with slab reefed main sail and genoa.

She was the 2018 Southampton Boat Show exhibit and has been cared for to exacting standards using only professional marine tradesmen and the Rustler factory itself. With a strong, practical specification and presenting beautifully, this is a yacht for a discerning sailor. Call our Falmouth office for details and to arrange a viewing.

Meta Fields

Specs Equipment Information 9 Spec Content : "After sailing for over 30 years in the Mediterranean and having reached the age of 83, we decided the time had come to the retire from sailing, and do what many of our friends have done and take up motorboating. We therefore sold our Hallberg Rassy 54. However, after test sailing a number of powerboats, we decided mainly due to noise, vibration and environmental considerations that the way forward is a good quality sailing yacht with fully automated sails. We contacted Red Ensign and purchased what we considered mint condition 37 and Rustler Yachts refitted the yacht with in mast powered furling and a powered self-tacking jib, which meant that we could enjoy sailing at a touch of two buttons. This we believe has given us the best of both worlds" Broker - Sophie represents excellent value compared to a new build. We would expect a new Rustler 37 to be a cost increase of just over 35% depending on specification. Delivery time on a new Rustler 37 is likely to be into 2025 for completion.
